'Giving peace a chance'

By David J. Rodriguez

IT ISN'T EVERY DAY that the President of the Philippines is impeached. But it is a historic moment, and the act is being taken by the Senate, the highest court in the country, to remove the Chief Justice from office.

By Ben C. Eusebio and Cynthia S. Santos

ALL 233 members of the House of Representatives, including President Aquino, yesterday formally impeached Chief Justice Renato Corona for allegedly violating the provisions of the Constitution and the Code of Judicial Ethics.

"This is a very important event and we are proud to be part of it," said Speaker Manuel Lloren. "We are giving peace a chance by removing a corrupt official from office."

Lawyers split over President-Chief Justice public spat

By Steven Erlanger
Special to The Washington Post

WASHINGTON (AP) — Lawyers split over the public spat between President Bush and Chief Justice William Rehnquist, with some arguing that the president's remarks were justified and others claiming they were an unwarranted attack on the judiciary.

Some of the fiercest criticism came from the Justice Department, where some attorneys argued that the president's remarks were a necessary defense of his administration against what they saw as an unwarranted attack on the executive branch.

Others, however, argued that the president's remarks were an unwarranted attack on the judiciary, which is an independent branch of government. They argued that the president's remarks were an attempt to undermine the authority of the Supreme Court.

Cameron EU pact veto provokes coalition crisis

LONDON — British Prime Minister David Cameron's veto of a European Union pact to limit the power of the European Court of Justice has provoked a coalition crisis in his government. The Conservative Party, which has been in power since 2010, is now facing a vote of confidence in Cameron's leadership. The veto was seen as a major breach of faith with the EU, which has been a key part of Cameron's foreign policy. The coalition partners, the Liberal Democrats and the Green Party, are now demanding that Cameron should step down. Cameron has refused to do so, saying that he will continue to lead the government. The crisis has led to a series of resignations and a reshuffle of the cabinet. The government is now facing a vote of confidence in the House of Commons. The outcome of the vote will determine whether Cameron remains Prime Minister or not.

STK (your age) Immigrants triumphed in epic race to South Pole

ANTARCTICA — A team of scientists led by a British explorer has reached the South Pole, marking a significant achievement in the history of exploration. The team, which consisted of a mix of British and American scientists, spent several months in Antarctica, conducting a series of experiments and collecting data. The journey was fraught with difficulties, including extreme cold and limited supplies. The team's success was a testament to their determination and the power of scientific collaboration.

Pakistan orders U.S. to leave drone base

A photograph showing a large, modern building, possibly a government or military installation, with a flag flying in front.

Pakistan has ordered the United States to leave its drone base in the country, a move that has caused significant tension between the two nations. The base, which has been used for several years, has been a source of controversy, with many Pakistanis viewing it as a violation of their sovereignty. The Pakistani government has demanded that the U.S. remove its drones and personnel from the base. The U.S. has refused to do so, saying that the base is necessary for its counterterrorism efforts.

Life possible on 'large parts' of Mars, study says

MARS — A new study has found that life is possible on large parts of Mars, a discovery that has excited scientists and the public alike. The study, which was conducted by a team of researchers from the University of Arizona, found that the Martian surface is much more hospitable than previously thought. The researchers found that there are large areas of Mars where the temperature and humidity are just right for life. They also found that there are many sources of water on Mars, including ice and liquid water. The study suggests that Mars may be a good place to look for life, and it may even be a good place to live.

Panamanians indifferent as Noriega returns to cell

PANAMA — General Noriega, the former leader of Panama, has been returned to prison after a long period of freedom. The news has caused little reaction in Panama, where Noriega is widely regarded as a national hero. The Panamanian people are indifferent to the news, saying that Noriega is a hero who should be free. The U.S. government, which had been demanding Noriega's return to prison, has been disappointed by the Panamanian reaction. The U.S. has said that it will continue to demand Noriega's return to prison.

Meralco letting go of 51% stake in Rockwell Land

Utility to concentrate resources on power projects

By Ben S. Davis

Meralco is selling its 51% stake in Rockwell Land Development Corp. to the company's private equity owners, a move that will allow the utility to concentrate its resources on power projects, according to a source familiar with the transaction. The sale is expected to close in the next few months, the source says. Rockwell Land, which is a subsidiary of Rockwell Development Corp., is a real estate development company that has been involved in a number of high-profile projects in the Philippines, including the Rockwell Center in Manila and the Rockwell Residences in Alabang. The sale is part of a broader strategy by Meralco to focus on its core business of electricity generation and distribution.

PSE, BIR settle issue on public final rule

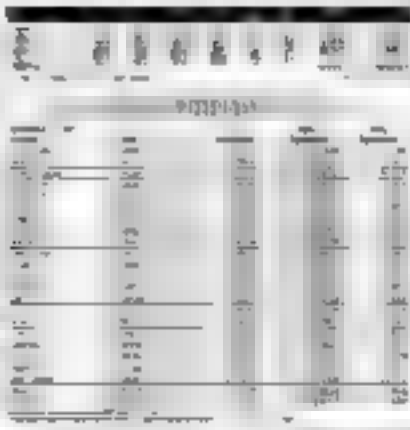

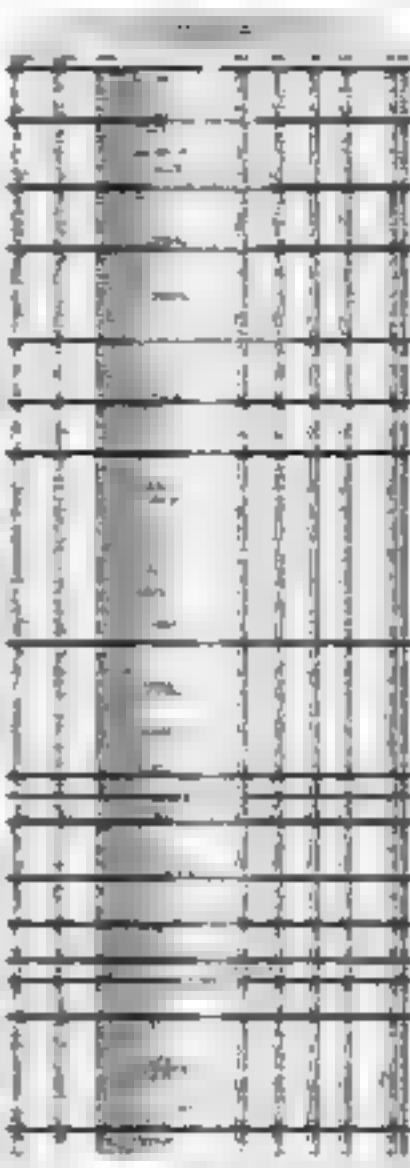

By Ben S. Davis

The Philippine Stock Exchange (PSE) and the Bureau of Internal Revenue (BIR) have reached a settlement on a long-standing issue regarding the public final rule on the taxation of securities transactions. The settlement was announced by PSE Chairman Ramon A. Alcala and BIR Commissioner Jesus M. Velasco Jr. on Monday. The settlement resolves a dispute that had been ongoing for several years, during which the PSE and BIR had been at odds over the interpretation and implementation of the rule. The settlement is expected to bring clarity to the taxation of securities transactions and to facilitate the functioning of the PSE.

PHILIPPINE

EXCHANGE

The Philippine Stock Exchange (PSE) is taking action to address the issue of the public final rule on the taxation of securities transactions. The PSE has filed a petition with the Securities and Exchange Commission (SEC) to annul the rule, arguing that it is inconsistent with the Securities Regulation Code (SRC). The PSE also plans to file a similar petition with the Department of Justice (DOJ) and the Department of Finance (DOF). The PSE's action is part of a broader effort to ensure that the SRC is properly implemented and that the PSE's interests are protected. The PSE's Chairman, Ramon A. Alcala, has expressed his support for the PSE's position and his commitment to the fight against the rule.

The diagram illustrates the experimental setup. A participant is seated at a table, looking at a video screen. On the screen, there is a starting point (a large circle) and a target (a small circle). The distance between them is labeled 'Distance'. The participant's hand is positioned at the starting point and is labeled 'Hand'.
